SUMMARY

IT and cybersecurity student at Frans Schartaus Handelsinstitut, driven by curiosity and active in CTF competitions. Involved in the leadership group of the OWASP Stockholm chapter, where I contribute to strengthening the local security community. Often described as a responsible, professional, and upbeat colleague who's driven to go the extra mile.

WORK EXPERIENCE

Security Researcher (LIA Internship & Part-time), Detectify

Aug 2026 to Present

- Validate vulnerabilities from Detectify's Crowdscore network and develop test modules in JSON-based DSL and Go
- Collaborate with internal and external security researchers within agile workflows
- Contribute to continuous automation of module development to reduce the number of false positives

Surveyor / Business Owner, Hållbro Mätkonsult AB

Aug 2021 to Present

- Founder and co-owner of a consultancy within the construction industry
- Responsible for quality, documentation, and material for financial and technical decisions in the client's project management
- Daily communication with multiple stakeholder groups in complex project environments

Surveyor / Consultant, GeoDeal AB

Jun 2019 to Jul 2021

- Identified client needs and proposed technical solutions
- Represented the company with professionalism and integrity in client meetings
- Built networks and relationships that created new business opportunities for myself and colleagues

PROJECTS

IOC Analyzer, github.com/DanielHallbro

Dec 2025 to Present

- Threat intelligence tool built in Python for automated IOC analysis via VirusTotal, AbuseIPDB and JA4+ TLS fingerprinting, with AI-driven assessment

AWS Cloud Security Project, github.com/DanielHallbro

Apr 2026 to May 2026

- Security analysis and redesign of a vulnerable AWS architecture, implemented as Infrastructure as Code via Terraform following the principles of defense in depth and least privilege
